Get Online, Get Outside!

As you are reading this 2018 application guide, you are probably already aware of several exciting changes that we've made that will positively affect your hunting experience in Nevada!

It starts with your hunting license (and you can find more details in this publication)! After more than two years of planning, talking with sportsmen, field testing ideas, analyzing data, collaborating with vendors, and working with the legislature, we now have our new simplified license structure. Your new license includes all stamp privileges that you used to purchase separately. With the new license, should you find yourself tempted to harvest a chukar during your deer hunt, you don't have to worry about purchasing an upland game stamp – it's included! Anglers no longer need to debate the merits of buying a trout stamp with license vendors, because it is now included with a fishing license! A combination license includes everything you need to hunt or fish in the state, including a second rod stamp, Colorado River permits, and other privileges. You don't have to wonder, you can just go. In addition, your license is valid for 365 days from the date of purchase. The only thing we could not include was a federal duck stamp.

You may be wondering about the finances. Although we have eliminated the need to purchase the stamp privileges, we have not eliminated the dedicated funding those stamps provided. A portion of each license purchased is still directed to those important funds that support wildlife habitat work, targeted fishery projects and products, waterfowl and wetlands projects, and all the other important work that was being done. In fact, the entire effort was designed to improve and ease the experience for the hunter and angler, but we calculated our prices so that the revenue to the Department would remain unchanged. We don't expect to lose revenue, but we also did not increase fees. Maintaining a revenue neutral price was critical to the simplification effort, and the average hunter and angler will see little change to the total fees paid. In fact, many youth and specialty licenses are now cheaper than before! Nevada's fees have remained constant longer than other western states.

We have also adopted changes to our online application procedure to make your application easier. The entire process is designed to make your choices easier. You can pick your species, pick your hunt area, pick your seasons and apply! You can share your group application with your hunting partners, and they can apply with you and pay for their tag and application fees themselves. You can now choose to be reminded when your license is about to expire and have your privileges automatically renewed. The new process provides many advantages, and we have provided you with an online link to a tutorial that will walk you through them! After you use this new system, I believe you will agree that this is a remarkable improvement! While cost was not a primary consideration in this redevelopment, you will be pleased to know that the new system came at a substantial price savings as well.

It is critical that we continue to provide our customers with improved service. These improvements routinely come from ideas that you share with us. Take the time to give us a call, send us an email, attend a County Advisory Board or Nevada Board of Wildlife Commissioners meeting, or participate with the wildlife conservation organization of your choice. Get involved and share your experiences with your friends and family. I look forward to my outdoor experiences during the upcoming year and perhaps we may cross paths in Nevada's great outdoors!

What are you waiting for? Get Online and Get Outside!

Qualifications for Resident Licenses

A person is considered to be a resident of the State of Nevada if he is a citizen of, or is lawfully entitled to remain in, the United States, and during the six months next preceding his application to the Department for a license, tag or permit, he maintained his principal and permanent residence in this State; was physically present in this State, except for temporary absences; and did not purchase or apply for any resident license, tag or permit to hunt, fish or trap in another state, country or province. A person who does not maintain his

principal and permanent residence in Nevada but who is attending an institution of higher learning in this State as a full-time student is eligible for a resident license, tag or permit if, during the six months next preceding his application to the Department for a license, tag or permit, he/she: was physically present in Nevada, except for temporary trips outside of the State, and did not purchase or apply for any resident license, tag or permit to hunt, fish or trap in another state, country or province. A resident license, tag or permit issued by this State is void if the person to whom it was issued establishes or maintains his principal and permanent residence in

and obtains any hunting, fishing or trapping privilege or entitlement conditional on residency from another state, country or province. Principal and permanent residence means a place where a person is legally domiciled and maintains a permanent habitation in which he lives. The term does not include merely owning a residence in the state (NRS 502.015).

Military Stationed in Nevada

Any member of the Armed Forces of the United States who has been assigned to permanent duty, as opposed to temporary or casual duty, within the State of Nevada qualifies for all necessary hunting or fishing licenses, tags or permits for fishing, hunting or trapping in the State of Nevada. A like privilege must be extended to spouses and dependents, under the age of 21, of such members of the Armed Forces. All such licenses, tags or permits must be issued on the same terms and conditions and at the same costs as licenses, tags or permits are issued to Nevada residents, except that the 6 months' residence requirement must be waived (Per NRS 502.070).

Hermitage Ranch provides an unrivaled experience for its attendees. Our campers spend a week gaining a variety of fishing, conservation and hunting skills with a major focus on safe firearm handling. Hunt Camp participants go on mock hunts with an emphasis on improving shooting and hunting skills. As part of the Beginning Camp, campers will complete their hunter education course and upon successful completion will earn their Hunter Education Certificate.

Beginning Camps are for girls and boys ages 10-18 who wish to obtain their hunter education certificates. Campers will spend classroom time learning information necessary to pass the Hunter Education test. They will also spend a great deal of time outdoors in the field learning to become ethical, safe, and skilled anglers, shooters, archers and wildlife conservationists.

Big Game Seasons

Limits and Hours

The limit is one animal per tag and the hunting hours are one-half hour before sunrise to one-half hour after sunset for all big game hunts, unless otherwise specified.

Important: The quotas listed are from the 2017 big game seasons. Big game quotas will not be set until the May 2018 Commission meeting in order to accommodate the most current data on big game herds. New hunts, dates or units added to a hunt are marked in **bold blue italics**.

Note: Standard dates for opening and closing of seasons are set by calendar date and not based on a Saturday opening and Sunday closing.

BEFORE YOU APPLY

The Department maintains several informational resources on our website at www.ndow.org to help with planning your hunt including: Hunter Information Sheets (facts on terrain, vegetation, land ownership, hunter access, map references, local services and recommended hunting areas), hunt application advisories, big game demand, hunter success rates, harvest point class and bighorn sheep age and scores.

IMPORTANT INFORMATION FOR THE 2018 BIG GAME SEASONS

Antelope: Starting with 2017 tags, waiting period for antelope with horns-longer-than-ears is 3 years regardless of hunt success.

Elk: Starting with 2017 tags, the waiting period for antlered elk tag is 7 years regardless of hunt success. The previous 5 year waiting period remains in effect for antlered elk tag holders who were unsuccessful harvesting in 2016 or earlier.

Helicopters and your Hunt

Each year, the Nevada Department of Wildlife conducts about 1000 hours of surveys with two Department helicopters to determine the productivity and distribution of wildlife species from mule deer to eagles. These aircraft are occasionally supplemented by contracted fixed-wing aircraft or helicopters to assist during high-demand periods. Wildlife surveys are essential to harvest regulation, and the Department strives to avoid conducting surveys during hunting seasons. Unfortunately, weather and demands associated with optimal survey timing, the Department must conduct surveys during seasons when a hunt may be ongoing. We are asking hunters to recognize that a survey may occur during any open hunting season, although the Department will do its best to reduce this to the extent possible.

Notable Seasons and Hunt Information

- All desert bighorn ram hunts that ended on Dec. 20 in previous years will now end on Jan. 1
- Legal shooting hours have been extended to one-half hour after sunset.

The Department strives to minimize overlapping seasons among weapon class and animal gender. In order to provide adequate opportunity to hunters or capitalize on animal accessibility, these overlapping seasons are sometimes unavoidable. Notable overlaps in 2018 big game seasons include:

- **Antlered Deer Muzzleloader Hunt** partially overlaps early season Antlerless Elk Any Legal Weapon Hunt in many areas;
- **Units 072-075 Antlered Elk Muzzleloader Hunt** overlaps Antlerless Elk Muzzleloader Hunt;
- **Units 161-164 Antlered Elk Archery Hunt** partially overlaps Antlerless Elk Muzzleloader Hunt;
- **Unit 262 Antlered Elk Any Legal Weapon Hunt** overlaps Antlered Deer Muzzleloader Hunt.

RAM AND EWE SHEEP ELIGIBILITY INFORMATION Q&A

Q: I am eligible for a bighorn sheep ram hunt (Desert or California). Can I apply for the bighorn sheep ewe hunt?

A: Yes, if you are eligible for both. However, you will only be able to obtain one tag in the same subspecies. Be aware that if the ewe application is drawn first, the ram application will become unsuccessful and vice versa. One strategy is to put in for bonus points for one or the other hunts.

Q: I am eligible for a Rocky Mountain ram hunt. Can I apply for the Desert and California bighorn ewe hunt?

A: Yes. As long as you are eligible for those hunts.

Applying for elk

Applicants can apply for both antlered and antlerless elk in the same draw period. Additionally, if a person is interested they can apply for multiple antlerless elk hunts in the same draw but only draw one antlerless elk tag.

Spike Bull

An applicant is able to apply for both antlered elk and spike elk. However, they will only be able to draw one of the tags. Be advised that once a tag is drawn the other application becomes unsuccessful. There is the possibility an applicant could draw the spike tag instead of an antlered elk tag.

Deer and Antlerless Elk Management Tag Combination Applications

Background

This antlerless elk management tag opportunity is intended to increase antlerless elk harvest without adding additional hunters and hunter congestion during existing mule deer hunt seasons. This antlerless elk tag is considered a “management” antlerless elk tag without any associated bonus points.

Guidelines

- Resident and nonresident mule deer applicants may choose to draw an additional antlerless elk management tag if they draw a deer tag.
- The season for the antlerless elk management tags issued in this method would be the same season dates as the deer tag.
- The antlerless elk management tag may be a select set of hunt units within the mule deer unit group depending on where the Department identifies the need for antlerless elk harvest (i.e., antlerless elk tag may only be good for Unit 061 or 062 within deer unit group 061 – 068).
- Management hunt tags will not earn bonus points.

ELK ELIGIBILITY AND APPLICATION INFORMATION

- Nonrefundable application fees will be charged for the antlerless elk management application selection.

Elk Eligibility Information Q&A

Q: Can I put in for both a bull tag and an antlerless elk tag in 2018?

A: Yes.

Q: How many elk tags could I obtain in the draw?

A: Only one antlerless elk tag and one bull elk tag or spike elk tag.

Q: Can I apply for the antlered elk and the spike elk hunt in the same draw?

A: Yes, however, you can only obtain one tag. For example, if the spike elk application is drawn first the antlered elk application will become unsuccessful. We advise applying for bonus points for one or the other as an option.

Q: I put in for bull elk. Can I apply for the spike elk hunt and the antlered elk depredation hunt in the same draw?

A: Yes.

Q: I am in a waiting period for antlered elk, can I apply for the spike bull hunt?

A: Yes.

Q: I am eligible for bull elk. Can I apply for the antlered elk hunt, the combination antlered deer and antlerless elk management tag, a regular antlerless elk any legal weapon hunt, and the antlerless elk depredation hunt?

A: Yes. However you will be paying the non-refundable application fees for each application you submit. You will only be able to draw one antlerless elk tag. You could have a low draw number for the antlerless elk depredation hunt, draw that tag and all other antlerless elk applications will be unsuccessful. Your bull tag application will still be processed and you could still draw that tag.

Q: Can I earn bonus points on the spike elk hunt if unsuccessful?

A: Yes.

Q: Can I apply for both the spike elk hunt and an antlerless elk hunt in the same draw?

A: Yes. You could possibly draw both so make your selections wisely. Also, if unsuccessful for either hunt, bonus points will be earned separately on each.

Q: How many antlerless elk applications can I submit in the same draw?

A: You can only submit one application for each type antlerless elk hunt in the same draw. That means you could apply for an antlerless elk management tag in a combination hunt, antlerless elk hunt, and antlerless elk depredation. You will be paying the nonrefundable application fees for each application submitted and you will only be able to draw one antlerless elk tag.

| Unit 091** | 2 |

- Hunting hours are any time day or night.
- A hunter, or their licensed guide or subguide if applicable, must call the mountain lion hotline at 1-800-800-1667 prior to hunting to determine if a unit group is open or closed.

** Unit 091 is an Interstate hunt with Utah. Nevada and Utah hunters may hunt within open units in both states (Nevada Unit 091, Utah Unit 1C). Nevada hunters hunting in Utah must abide by Utah regulations and season dates on the Utah portion of the hunt area.

Mule Deer

Resident Junior Mule Deer - Antlered or Antlerless - Archery, Muzzleloader, or Any Legal Weapon

The junior youth hunt is an either sex hunt; tag holders can harvest a buck or a doe. This tag allows the junior hunter to hunt during the archery season when the unit is open for archery only; to hunt with a muzzleloader when the unit is open for muzzleloader only; and to hunt with any legal weapon (including crossbow) when the unit is open for any legal weapon. If a junior hunt applicant is unsuccessful in drawing a tag, bonus points will be awarded for the junior hunt.

Note: Any bonus points accrued in the junior hunt will automatically transfer to the antlered deer category at the time the junior hunter becomes ineligible for the junior hunt by either age, or after 5 years of application for the junior hunt.

Youth must be 12 prior to the opening of each hunt choice applied for (usually Archery), and will not attain their 18th birthday until after the last day of the last season applied for (usually Any Legal Weapon). A person who is otherwise eligible to apply for a junior hunt may apply for a junior hunt 5 times.

Partnership in Wildlife (PIW) Hunts (CR 18-05)

Partnership in Wildlife (PIW) is a voluntary and optional participation program that offers unique hunting opportunities to hunters for a few statewide big game tags. A person with a PIW tag may hunt in any unit with an open season for the species listed on the tag, during the season dates when that unit is open for that species, and only with the weapon authorized to be used during that open season.

Application Instructions

Applicants who are eligible and apply for hunts in the first big game drawing of the year can apply for PIW hunts at the same time. Marking the PIW box for the same species you applied for in the first drawing will let us know that you want to participate in the PIW drawing for some very special tags. (Doe, antlerless elk, depredation and junior hunt applicants are not eligible for PIW hunts.) The PIW fee is \$10 for each species applied for. If successful for a PIW hunt tag, the tag fee will be charged. If unsuccessful in the PIW draw, \$10 will be placed in the Wildlife Heritage Trust Account.

Funds Benefit Wildlife Heritage Trust

The funds donated through PIW are placed in the Wildlife Heritage Trust Account. According to NRS 501.3575, 75 percent of the money deposited in this account in the previous year and the total interest earned on the account during the previous year, may be used by the Department annually for the protection, propagation, restoration, transplantation, introduction and management of any game fish, mammal, bird or furbearing mammal and the management and control of predatory wildlife in the state. The Board of Wildlife Commissioners is responsible for reviewing and approving expenditures from the account.

Every year wildlife management projects are funded through this account. PIW promises to benefit both Nevada's wildlife and the sportsmen by providing additional financial support for game management programs and providing a hunting opportunity that would not otherwise be available to most sportsmen in Nevada.

Rifles: Must use a center-fire cartridge of .22 caliber or larger.

Handguns: Must have at least a 4-inch barrel and use either:

1. A centerfire cartridge of .22 caliber or larger with an overall loaded length of 2 inches; or

Prohibited Firearms: Any firearm capable of firing more than one round with one continuous pull of the trigger.

Prohibited Ammunition: Full metal jacket, full steel, full steel core, tracer or incendiary bullets or shells.

Shotgun (only legal for deer and mountain lion): 10, 12, 16 or 20 gauge. Shotgun barrels may be smooth or rifled for either species.

Muzzle-loading Rifle and Musket NAC 503.142 and NAC 503.145

During a “Muzzle-loader-Only” Hunt:

Caliber: Firearm must have a single barrel of .45 caliber or larger. **Ignition:** Wheel-lock, matchlock, or flintlock ignition system, or percussion ignition system that uses a primer or percussion cap; (in-lines are permitted.)

Legal Projectiles: Lead ball, lead bullet, semi-jacketed bullet or a metal alloy bullet that expands. A sabot round may be used.

Sights: Only open sights or peep sights are permitted; scopes prohibited. A sight that is operated or powered by a battery, electronics or a radioactive isotope such as tritium is prohibited. Scopes are permitted only during an “any legal weapon” hunt.

Powder: Only black powder or a black powder substitute may be used; smokeless powder is prohibited.

A muzzle-loading tagholder may carry a flintlock or percussion handgun during a

muzzle-loading-only hunt, however, it may not be used to hunt big game.

Note: Per NAC 503.146, the Department may issue a scope permit to a person with a visual disability which will authorize the use of a 1x magnification scope during a hunt that is restricted to archery or muzzle-loading weapons only. Applications must be submitted to the Department on a form provided by the Department.

Bow and Arrow NAC 503.144

Bow includes any longbow, recurved bow or compound bow. A crossbow is not a bow.

Bow characteristics: A bow used in hunting a big game mammal must have a minimum draw weight of 40 pounds and a maximum let-off of 80 percent.

Arrows: Legal hunting arrows must have a broadhead attached, be 24 inches in length from the end of the nock to the tip of the broadhead and have a 300 grain minimum weight with all components installed.

Broadheads: Fixed broadheads must be at least 7/8 inch wide at the widest point; me-

chanical heads must be at least 7/8 inch wide at the widest point when in the open position.

It is unlawful: For any person to carry any rifle, musket or handgun equipped with a telescopic sight or with a barrel length of 8 inches or more in the field while hunting under archery regulations (i.e., an archery-only hunt). To carry a bow with an arrow nocked on the bowstring while in or on any motorized vehicle (exceptions in 503.144). To hunt any wildlife with an arrow that has any chemical, explosive or electronic device attached.

Crossbow NAC 503.143

Unless a tag holder holds an Archery Disability Permit, it is unlawful to:

- Hunt a big game mammal with a crossbow during either a 'bow-only' or a 'muzzle-loader-only' hunt.
- Carry a cocked crossbow containing an arrow or a bolt while in or on any motorized vehicle while the vehicle is on a public highway or other public right-of-way.

Archery Disability Permit: A person with a permanent physical disability can now qualify for a permit that authorizes them to use a crossbow or a bow that uses a mechanical device that can anchor a nocked arrow at full draw or partial full draw during an archery hunt.

As used for this permit, "permanent disability" means a disability which prohibits a person from manually drawing and holding a legal bow at full draw. Contact your local NDOW Office for information.

Sight Attached to Firearm or Bow NAC 503.145

A sight attached to a firearm or bow that is used to hunt a game mammal or game bird, or a sight attached to a crossbow that is used to hunt a big game mammal, may be illuminated or powered by:

1. A battery contained within the sight;
2. Light-gathering fiber optics;
3. A radioactive isotope such as tritium; or
4. Iridescent or fluorescent paint.

It is unlawful for a person to hunt a big game mammal, a game mammal or a game bird with a weapon that is equipped with a sight that is capable of casting or projecting a beam of light that is visible to the unaided human eye from the sight to the animal.

Hunter Education Requirements

Anyone born after January 1, 1960 is required to provide proof of Hunter Education, in order

to purchase a Nevada hunting license. Proof of Hunter Education is an official Hunter Education card or certificate from any state or Canadian province, with the Hunter Education number and state or provincial logo or seal or a previous year's hunting license with the Hunter Education number or mark. If you have taken a hunter education class in another state or Canadian province, verification must be provided. (NRS 502.330)

Bonus Point Information

What is a Bonus Point?

An accumulated credit (or point) that authorizes the Department to issue an applicant additional computer generated random draw numbers during a draw. One point is accumulated for every application that is unsuccessful in the computerized draw for an established species category. The bonus point system grants an applicant one random draw number for each bonus point that has been accumulated going into the drawing for that species category. Each bonus point random draw number is in addition to the application random draw number. The total number of accumulated points is squared and added to the current application to arrive at the total number of random draw numbers that will be assigned to the application for that species category (e.g. Hunter has two bonus points entering draw: $2^2 (2 \times 2=4) 4+1$ (for current application) = 5. Applicant receives five random numbers for draw) This system provides applicants with an added chance of receiving a low random number in the draw, hence improving their draw odds, while still providing a chance (no matter how small) for any applicant.

Bonus Point Program Guidelines NAC 502.4187-4189 and NAC 502.4225

Residents and nonresident tag applicants receive bonus points for all hunts that have a quota set by the Wildlife Commission when they are unsuccessful in drawing a tag through the computerized random draw system. In addition to deer, elk, antelope, sheep, goat and black bear applicants also receive bonus points for wild turkey. Prior to applying or during the application process applicants must purchase the hunting or combination hunting and fishing license to earn bonus points.

Bonus points are awarded by specific species categories, each encompassing all separate weapons hunts available in that category. These categories are: antlered mule deer, antlerless mule deer, antlered Rocky Mountain elk, antlerless Rocky Mountain elk (antlerless elk), spike Rocky Mountain elk, Pronghorn antelope

whose horns are longer than their ears, Pronghorn antelope whose horns are shorter than their ears, mountain goat and black bear. Rams, from each of the following subspecies: Nelson (desert) bighorn sheep, California bighorn sheep and Rocky Mountain bighorn sheep. Ewes, from each of the following subspecies: Nelson (desert) bighorn sheep, California bighorn sheep and Rocky Mountain bighorn sheep.

Those points cannot be transferred to another person or into another species category.

Applicants are only able to accumulate one bonus point per species category each year. So, if you applied for any legal weapon tag and were unsuccessful, and then applied for an archery tag in a separate draw, and were unsuccessful, you still only accrue one point because these are both in the antlered deer category.

However, if you apply for any legal weapon tag, and are unsuccessful, and then apply for a doe tag in separate draws, and are unsuccessful, you would receive a bonus point for each because they are in two different categories — antlered deer and antlerless deer. Depredation and management hunts do not earn bonus points.

Those applying as a "party hunt" will have their points averaged (total points of all hunters in the party, divided by the number of hunters) and rounded to the closest whole number. Bonus points are squared by species category, resulting in the number of draw numbers that an individual hunter or hunt party will receive in that drawing.

Except for tags issued during the first-come, first serve draw a hunter's bonus points revert to zero in a particular species category when he is successful at obtaining a tag or fails to apply for two consecutive years.

Because the draw numbers that determine whether or not a hunter draws a tag are generated randomly across all applications, there is no guarantee that a hunter will draw a tag for the species category because he or she may have more bonus points than anyone else.

Bonus Point Program Exceptions NAC 502.4187

Bonus points are not awarded for depredation hunts or management hunts. (Refer to NACs 502.4188 and 502.4189)

Refund of Fee for Hunting License - Loss of Bonus Points

An applicant who fails to obtain a tag may obtain a refund of the fee for his/her hunting license if the license is not a combined hunting and fishing license and he/she:

1. Purchased the license solely to apply for a tag;

2. Does no hunting under the authority of the license; and
3. Submits the license to the Department on or before the last weekday of August of the year in which the license was valid. The Department shall accept the license only if it is received on or before that date.
